Situation

The combined villages of Brafferton and Helperby are noted for their individual homes with amenities including two public houses, village hall, two churches, surgery, a butcher shop and public transport all being equi-distant from a wide range of amenities in both Boroughbridge and Easingwold. There is also a variety of private and public schooling options in the area. Whilst offering the best of North Yorkshire village living, the location is increasingly noted for its accessibility with the A1 (M) motorway to the west and A169/A19 to the north and east, providing accessibility to the region's commercial centres, including the likes of York and Harrogate as well as the Teeside and West Yorkshire conurbations. There are connections to the East Coast mainline rail service at Thirsk and York with airport options at Teeside and Leeds/Bradford.

Development

Specialist residential developers Sullivan Homes are again working in conjunction with highly respected local builders, AJ Hawkrige, combining their skills at Rowan Garth to construct a range of exceptional new homes that on the one hand respect the semi-rural setting and on the other exceed the high expectations of modern day living. The result is a development of only five homes, each being of different design whilst complimentary, and situated on a private driveway and overlooking a green that will be jointly owned to enhance the exclusive nature of the Rowan Garth development. There has been close attention to specification throughout the design process plus air source heating and solar roof panels which together with the benefits of traditional cavity wall construction justify a high B rated energy performance prediction.

Specification

As one would expect with a bespoke development of this calibre the specification throughout cannot fail to impress. Traditionally built with external design detailing that is individual to each of the five properties, these superb new homes which face south-east, benefit from air source heating and individual solar panels and high specification double glazing. Kitchens have been designed and supplied by David Charles including Bosch appliances with the sanitary ware equally impressive. The internal attention to detail includes oak handrails and the electrical design reflects the practical uses of the individual rooms with chrome wall switches and sockets internally. Externally, the immediate front gardens are turfed, with rear gardens seeded with appropriate fencing and/or hedging to delineate boundaries. All properties are offered with a 10 year major defect warranty plus manufacturer warranties on fittings where appropriate

Accommodation

Lawson House is an attractive 3 bedroom house detached house arranged to offer flexible living with a strong open plan feel on the ground floor combining the family room, kitchen and dining room into one overall space, plus a sitting room and separate study that could be an occasional additional bedroom. There is also a cloaks/WC and separate utility room. The first floor offers 3 double bedrooms and 2 bath/shower rooms (one en-suite), with the 2 main bedrooms each having a Juliet balcony. There is an attached single garage, additional double parking, an electric vehicle charging point. The garden is predominantly to the rear, with generous paved terracing.

Tenure

Freehold with vacant possession on legal completion.

Services

Mains water, electricity and drainage. Air source heating and solar panels.

Agents Note

The development has now been officially named as Townend Way, Brafferton, York YO61 2QW. The five respective owners will jointly own, and maintain, the roadway together with the associated pathways, the mature boundary hedge that fronts the highway, as well as the open areas of grass to the front of the development. Particulars written and photographs taken Summer 2024.
