### Situation

#### Situation

The combined villages of Brafferton and Helperby are noted for their individual homes with amenities including two public houses, village hall, two churches, surgery, a butcher shop and public transport all being equi-distant from a wide range of amenities in both Boroughbridge and Easingwold. There is also a variety of private and public schooling options in the area. Whilst offering the best of North Yorkshire village living, the location is increasingly noted for its accessibility with the A1 (M) motorway to the west and A169/A19 to the north and east, providing accessibility to the region's commercial centres, including the likes of York and Harrogate as well as the Teeside and West Yorkshire conurbations. There are connections to the East Coast mainline rail service at Thirsk and York with airport options at Teeside and Leeds/Bradford.

### The Development

Specialist residential developers Sullivan Homes are again working in conjunction with highly respected local builders, AJ Hawkridge combining their skills at Rowan Garth to construct a range of exceptional new homes that on the one hand respect the semi-rural setting and on the other exceed the high expectations of modern day living. The result is a development of only five homes that are each different in design whilst complimentary and situated on a private driveway that will be jointly owned to enhance the exclusive nature of the Rowan Garth development. There has been close attention to specification throughout the design process with air source heating and solar roof panels together with the benefits of traditional cavity wall construction. The same attention applies internally with purchasers also offered the opportunity to specify kitchen and sanitaryware choices (depending on the stage of construction).

### The Specification

As one would expect with a bespoke development of this calibre, the specification throughout cannot fail to impress. Traditionally built with external design detailing that is individual to each of the five properties, these superb new homes, which face south-east, will benefit from air source heating and individual solar panels. Subject to the build program purchasers will have the opportunity to personalise with allowances for kitchen fitments, sanitaryware and tiling. The internal attention to detail includes oak handrails and the choice of emulsion wall colour, again subject to the build program. The electrical design reflects the practical uses of the individual rooms with chrome wall switches and sockets internally. Externally, immediate front gardens will be turfed, with rear gardens seeded with appropriate fencing and/or hedging to delineate boundaries. All properties are offered with a 10 year major defect warranty plus manufacturer warranties on fittings where appropriate.

### Accommodation

A detached 2 bedroom bungalow with 2 bath/shower rooms (one en-suite) with a lovely living space having a high pitched, feature window and patio doors to the rear garden, plus double doors to the dining kitchen. There is also a separate utility room and study. Approx floor area: 1173 sq ft (plus single garaging)

### Tenure

Freehold with vacant possession on legal completion.

### Services

Mains water, electricity and drainage. Air source heating and solar panels

### Viewings

As this is a active building site viewings are strictly by appointment with the agent

### What3Words
