Situation

High Waupley Farm is situated between Whitby and Guisborough in a particularly attractive area of North Yorkshire on the periphery of the North Yorkshire Moors National Park within 9 miles of the picturesque village of Runswick Bay; voted 'Britain's Best Beach' in 2020 by The Times.

The market town of Loftus is about 4 miles away and is easily accessible providing a full range of shops, services, supermarkets, and leisure facilities. The surrounding area is renowned for productive farmland, picturesque countryside, quality sporting and its white sand beaches along a stunning coastline.

Road access is excellent with the A171 within a 2-mile drive and provides quick access to the neighbouring coastal villages (East) and the city of Middlesbrough (West). The East Coast Main Line also provides regular services to Edinburgh, Newcastle and London. The nearest airport is Teesside International Airport with regular domestic and international flights.

Description

High Waupley Farm is a substantial and productive arable unit, extending in total to about 327.40 acres (132.50 hectares) with a good range of fixed assets including a traditional stone-built four-bedroomed farmhouse, two attractive three-bedroomed semi-detached cottages and extensive range of modern and traditional farm buildings with potential for further development.

The farm has principally been utilised as a mixed arable and pig rearing enterprise. It has been well maintained with considerable investment made in modernising the farmhouse in recent years. The farm buildings are in good, useable condition and offer scope for a range of uses.

High Waupley Farm is currently owner occupied with the exception of No. 2 High Waupley Cottage which is let on an Assured Shorthold Tenancy (AST). Vacant possession of the whole property will be available on completion of the sale.

The Farmhouse

The traditional stone-built farmhouse is substantial and provides spacious family accommodation, extending to approximately 1,991 sq ft (185 sq m). The accommodation comprises a large contemporary kitchen, separate dining room, living room, utility and bathroom on the ground floor, with four good size bedrooms upstairs, as well as a family bathroom. There is a useful parking area at the front of the house with a delightful south facing mature garden and grass paddock to the rear.

The property has been completely re-wired and has undergone a significant schedule of modernisation works within the last three years, including a new kitchen, bathroom and double-glazed PVC windows throughout etc.

The farm is approached over a long, hardcore drive that runs past the farmhouse and into the farmyard, providing a high degree of privacy and security.

High Waupley Cottages

A pair of attractive semi-detached stone-built farm cottages with mirrored accommodation over two floors, each extending to approximately 1,184 sq ft (110 sq m) and comprising:

Ground Floor: Living room, kitchen, utility, pantry and coal shed.
First Floor: Three bedrooms and a family bathroom.

Both cottages have an area of garden ground and would benefit from a schedule of refurbishment and modernisation.

Farm Buildings

The farm buildings are extensive, comprising a range of farrowing units, livestock housing, grain stores and general-purpose sheds which provide excellent facilities in which to manage a productive mixed arable and livestock enterprise. The space is adaptable and flexible and can be added to as required. There is also a traditional stone-built granary located to the Northeast of the farm steading that is accessible via a separate hardcore track. It is considered that there is possible scope for change of use, subject to obtaining the necessary consents.

The block plan below shows the layout of the steading.

10	Livestock Housing	Two Steel portal framed buildings (plus lean-to) with corrugated asbestos side and roof cladding and concrete floor. Currently used to fatten pigs with a separate boar housing facility.	15,465 ft2
11	Livestock Housing	Timber barn with profile steel roof sheeting and slatted floor. Currently used to house second stage grower pigs.	3,348 ft2

Farmland

The land is predominantly good quality, Grade 3 / 4 arable land with slightly acid, base rich, clay loam soils capable of producing a wide variety of spring and autumn crops. The field parcels are of a good workable size for modern agricultural machinery and extends in total to approximately 327.40 acres (132.50 hectares) within a ring fence.

There are no Environmental / Countryside Stewardship Schemes in operation on the farm at present. It is anticipated that a new owner might wish to explore these options further in the light of changes to Government farming support and the introduction of Environmental Land Management schemes (ELMS) and the growing interest in biodiversity.

The land does not fall within a Nitrate Vulnerable Zone.
